REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The references disclosed on Applicant's IDS of 7/29/03 and the prior art of record teach similar prefetching systems but fail to teach the combination including the limitation of:

(Claim 1) "...a pre-fetch control unit coupled to the request history buffer, wherein the pre-fetch control unit is to check the request history buffer for a flag associated with a second memory location that is based on a first memory location called by the processor";

(Claim 8) "...a pre-fetch control unit to coordinate the flag stored in the RHB, wherein the pre-fetch control unit is responsive to the pre-fetcher";

(Claim 17) "...a pre-fetch control unit to check for a flag associated with data from a second memory location in the request history buffer, wherein the second memory location is to be calculated by shifting the first memory location by N in a first direction".

These limitations are found in paragraph [0023] of Applicant's Specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
